

A LITTLE WILLIS AGAIN HEADS BUREAU TALK ON OF MINES AT THE UNIVERSITY TIRES

The tire upkeep is a problem which should be carefully looked into.

What is a tire guarantee? How many times have you hurried your tire up to your dealer, expecting to get a replacement, and were told that it was not the tire's fault, and that you had no replacement coming, or to pacify you he would agree to send the tire to the factory, provided you would pay transportation both ways, and see what he could do. It then becomes necessary for you to buy a new tire, and you have about one chance out of ten of ever getting anything on the casing sent in.

Our guarantee: We make all replacements right here, right now; no waiting to see what the factory does about your tire.

Mileage: Do you know that you can buy our tires for 10 per cent less money, and a tire that you absolutely know that you are going to get a liberal replacement should it fail to give you the service guaranteed? This should interest every tire user; or for the same price that is charged for the other standard 3500 mile guaranteed tires we will guarantee Congress tires for 4000 miles.

Red Tubes guaranteed for one year. We handle only the best grade of red tubes, and so sure are we that they are the best that we are guaranteeing these tubes for one year. Yet, note our prices:

| Size | Pl. | Non-Skid | Red Tubes |
|----------|---------|----------|-----------|

Regents Complete Organization, With Five Instructors — Safety Department Plans to Publish Monthly Magazine

TUCSON, Sept. 21.—The board of regents of the University of Arizona at their September meeting completed the organization of the state bureau of mines, which organization is as follows: Charles F. Willis, director; A. M. Heckman, secretary; J. D. Arozema, assayer; E. L. Culin, Jr., mining engineer and P. E. Joseph, metallurgist.

Mr. Culin will be in charge of safety and welfare work and will conduct researches along the line of improving conditions relative to accidents and general welfare. It is expected that the bureau will publish a monthly magazine on this subject, which will be in charge of Mr. Culin. Mr. Joseph will compile all data relative to the non-metallic and rare minerals of the state with a view of putting before the people methods of utilization of many valuable deposits. Mr. Arozema will be in charge of the mechanical work of the department, and assaying and ore dressing.

Numerous educational bulletins will be published by the state bureau of mines with a view to communicating to the people within and without the state facts of Arizona mining. Other bulletins will be published on subjects of general interest to prospectors, such as mining law, useful minerals of Arizona and their methods of determination and mine valuation. There will be bulletins published for the benefit of the miner and the work of the industry at large. These bulletins will be distributed gratis, and may be had upon publication by addressing the director.

Arrangements Completed for Reception and Entertainment During 49th Annual Encampment at Washington Next Week

(Special to The Republican)
WASHINGTON, Sept. 21.—Final arrangements for the reception and entertainment of the Grand Army veterans at their 49th annual Encampment during the week of September 27th have now been completed. To correct any impression which might be gained by the association of ideas, it should be stated that the encampment is not to be a tented affair. The reunion will not be held under canvas as has been the case with these affairs in many cities. Instead, the Washington Citizens' Committee has provided, for the use of the veterans, a building adequately adapted for the purposes of the encampment and having, with the exception of the Capitol itself, the largest ground floor space of any structure in the city.

This building is the one in which the last census was compiled and stands on First street, adjoining the Capitol Plaza. The main floor is divided into two mammoth auditoriums in one of which the big reception on Tuesday night and the regular business session of the encampment will be held. The other has been set aside for camp-fire and the dog-watch of the naval veterans, on the floor above, there is a row of twenty or more rooms wherein the various corps and departments will have their individual headquarters throughout the reunion.

Rooms have also been assigned to be used as headquarters by the military and semi-military organizations allied with the Grand Army, so that all of the proceedings held in connection with the encampment will be under one roof.

A feature of the arrangements never heretofore provided will be a branch post-office established in the encampment building to which will be assigned by the postmaster of Washington, a force of clerks who will handle all incoming and outgoing mail for the veterans, and all correspondence intended for the visitors should be addressed to the Encampment Headquarters. Rest room, restaurant, hospital and other appointments and equipments necessary for the comfort and convenience of the old soldiers have been installed in the building.

The interior of the structure has been made to present a most attractive appearance by a force of decorators which the Washington Committee has brought from New York to give an artistic touch to the encampment.

The weather bureau officials, judging the future by the past have given as their opinion that ideal climatic conditions will prevail in Washington during encampment week, and in view of all the preparations and arrangements which have been made, this is all that is needed to make the forthcoming encampment, the most memorable one in the history of the Grand Army.

AMERICANS KIDNAPPED.
[Associated Press Dispatch]
EL PASO, Sept. 21.—Two Americans are reported to have been kidnapped at Santo Domingo, near Villa Ahumada eighty miles south of Juarez. The names given in the messages are Fuller and McCabe. The message information indicates they were taken from Fuller's home. Fuller is married and his wife was left at her home.

AJO ROAD TO OPEN UP A RICH COUNTRY

(Special to The Republican)
GILA BEND, Sept. 21.—That the building of the new Ajo railroad may lead to the opening of a large number of valuable properties in southwestern Pima county is indicated by the large number of specimens of silver and copper ores being brought in by prospectors, scores of whom are securing the country between the new town of Cordonia and the Mexican boundary. Great interest is being manifested in the reopening of a group of ancient workings near Sonita, said to contain ore of high value. A depth of 200 feet has been reached in one of the old shafts, now being cleared out. Ores on the dump indicate rich returns when the mine is cleaned out. The mines have not been worked for 75 years. Phoenix parties are behind the enterprise.

Six miles of the grade from here to Ajo have been completed, and the road will be laid at once. It is the plan to have the road in operation by January 1.

MANDAMUS WRIT UP IN SUPREME COURT

Application for Order Compelling Attorney General to Bring Quo Warranto Proceedings Against Judge Lyman Argued

The application of Attorney R. M. Fleming for a writ of mandamus to compel the attorney general to bring quo warranto proceedings against Judge Frank Lyman was heard by the supreme court yesterday as an original application.

No application for permission to file the application having been filed, the court ordered the case stricken from the files and taken up at this time as an entirely original application. G. P. Bullard, former attorney general and Attorney M. J. Dougherty of Mesa represented Attorney General Jones at the hearing of the application. The supreme court has taken the question as to whether it shall take original jurisdiction in the case under advisement.

IT COULDN'T ALWAYS BE KEPT A SECRET

The Marriage of Miss Elizabeth Belcher to Oliver Creech

Little Dan Cupid scored a victory in a battle with Oliver Creech, hero of the 1913 El Paso-Phoenix automobile race.

The god of love proved too strong an adversary for the plucky driver and last Thursday he appeared before Judge Frank DeSousa with Miss Elizabeth Anna Belcher of Gila county, who became his bride.

Young Creech desired that his marriage be kept a secret and not even his most intimate friends knew that he contemplated becoming a Benedict. The notoriety he obtained in the races two years ago made Mr. Creech who is unusually modest shun all publicity. At that time every newspaper in the country spoke in the highest praise of the racer who stopped his car to save the life of another when remaining in the race meant victory for the Phoenix boy. The auto enthusiasts of El Paso were so impressed with this act that they presented Mr. Creech with a handsome medal.

Today is the fifty-second anniversary of the issuance by President Abraham Lincoln of the emancipation proclamation. The colored people of Phoenix and the Salt River valley, remembering this, are to celebrate it at Patrick's hall tonight.

The exercises, consisting of speeches and music, will commence at 8:30 o'clock.

A. G. Shepperson, formerly of Sherman, Texas, will deliver an historical address. William P. Crump will deliver his eulogy of the late Senator R. K. Bruce, who served a full term of six years as United States senator from Mississippi.

MEXICANS STEAL GUNS FROM VALLEY HARDWARE

Throwing a rock through the plate glass window of the Valley Hardware store, shortly after midnight, last night, two unidentified Mexicans, effected an entrance to the show window space and secured possession of four high grade six-shooters. The noise of the breaking glass attracted the attention of men sleeping in the Club stables, half a block distant, and they called up the police.

Although officers were quickly on the scene they were unable to secure any trace of the robbers. It is not thought that they managed to secure any ammunition.

Earlier in the evening the attaches of the Club stables had noticed two Mexicans hanging around the corner. They thought they were drunk but as they were creating no particular disturbance did not notify the police. The Mexicans are described as one tall, the other short. The smaller of the two wore a black coat.
